Goran Hacek

CEO
Occam d.o.o.

Bilateral Meetings

- Thursday 15:30 - 17:00

Description
Occam provides a range of software and engineering services for a broad spectrum of industries. We turn ideas into top quality products that transform businesses. We develop custom firmware, embedded, mobile, desktop and web software systems, as also hardware and mechanical solutions. But where we can show our full potential are hardware and software integrated projects, like Internet of Things and connected systems.
