Croatia

City

Zagreb, Livadićeva 23 [Google map](#)

Idea

Shared and sustainable airport transfer solution

We offer our users the possibility to book a seat or a whole vehicle, when going to or coming from the airport.

We only work with top rated drivers so we are able to provide exceptional customer experience, but we don't stop at that.

We are able to completely offset the negative flight carbon footprint for our users by investing a share of our income into reforestation projects.

And because of our per seat pricing, our users can enjoy all of that, for even up to a third of the price.
